Editor's Note

Graduating in the year of 2005 is an exciting time for all us seniors The building is finally complete. We are the first class to have ventured through the high school when it was old, when it was under construction, and now we are the first class to graduate from the new Turners Falls High School.

This year we have the technology to access and produce a yearbook online through the Jostens' company. With brand new digital cameras it has been quite an experience learning how to upload pictures, make templates for pages, and create this yearbook.

We would like to thank the rest of the yearbook staff for all their help this year. Without you guys the yearbook would have not been possible. You guys are great! We would also like to thank Mr. Dziura and Mrs. Cousland for being wonderful advisors and keeping us on all the deadlines.

Good Luck to all of the remaining classes!

Sincerely,
Alayna Zellmann and Andrea Cialek

Dedication

Mrs. Tozloski

Retired 2005
"You have our eternal thanks."
TFHS

Leaving with the class of 2005 will be a teacher who has made an imprint on many of her students. This year we dedicate our year book to Mrs. Judy Tozloski. She has been teaching in our district since 1984. Mrs. Toz has been in the high school for the past seven years teaching math. She has been devoted to her students through the years, even when injuries forced her to take time off. We thank you Ms. Toz, for all of your time and effort that you put into this school.

Appreciation

Mr. Jobst and Mr. Mead

Mr. Jobst has influenced many students at our school. His classes are well-known for building our yearly bonfire. Mr. Jobst has been prominent at basketball games as a referee. His Graphic Arts class designed the new basketball officals insignia. He is commited to helping others understand what the world of technology really means.

Mr. Mead has been an influential English teacher at this school for many years. Before teaching at the high school he taught in the middle school. Every student that has had Mr. Mead remembers his safety tips before leaving for the weekend and his self defense lessons.

I can't believe it is over. We have been through a lot together and I can't believe the last four years flew by so fast.

The first big activity we participated in as seniors was float making during Booster Week. Float making this year once again reflected by our class's overall character. We faced triumph and troubles and still came out on top...well almost. We have not had the best record (according to the judges) but hey, what do they know, right?

Our class is notorious for PROCRASTINATING, but we manage to always produce a quality float. Kyle Lapointe and Kelly Terault reigned as King and Queen. Even though our float did not win, we as a class truly understand the importance of hard work, determination, and leadership, as exemplified by Kyle and Kelly.

Thinking of our Junior Prom brings back wonderful memories of the good times we shared that night. We held the prom at The Clarion on May 1, 2004 with "Written in the Stars" as the theme. We ate and danced the night away with DJ Ry.

As we approach the end of our senior year, we will be shifting our focus from minor-league education to the majors after high school. These past few years have been a rollercoaster of events and emotions: from freshmen year and September 11th to experiencing the next 3 years of noisy construction, we have finally made it! We are the first class to graduate from this beautiful new facility. I would like to congratulate the Class of 2005, and wish the best of luck to you in whatever you decide to do in the future.

Also, I would like to thank Mr. Dziura and Mrs. Kanash for everything that you have done for us, and for putting up with us for the last four years.

Sincerely,
Alayna Zellmann

Dedicated to Eric Zeiba

The class of 2006 got off to a great, yet busy, start as juniors. We kicked off the school year with Booster Day. For a theme we had cities and our class made an awesome float of Las Vegas. After Booster Day, our thoughts turned to the prom which was held at the Sheraton Hotel in Springfield. We tried our best to make it special and memorable, especially for the seniors. Everyone in the class is super pumped to return as seniors in the fall!

The Class of 2007 has had an amazing year so far. For Booster Day, The theme was cities. Our San Francisco float came in first place, for the second year in a row! Our duke was Ethan Kociela and our Duchess was Jenna Lapachinski.

So far we've been doing awesome fundraisers. We're currently selling pies. This winter we'll be having another breakfast with Santa, which we hope will be as successful as last years. This spring we plan to sell pizzas.

We are already thinking about the prom we will get to put on next year. We have looked into a few places and decided on Look Park.

Our class is more united now than ever and we look forward to the next two years!

AÉROPOSTALE

Wow, only three years left after this one! Our class hopes to have next year be even better. This year we started off experiencing our first float for the Booster Day parade. The theme was "cities" and our class chose Hollywood. The Hollywood Hills were a trick to make, between loading the staple gun and getting the letters to be in the right place. Our Knight was Jeff Tela and our Lady-in-Waiting was Stephanie Joly. They contributed greatly to the building of this year's float. Jeff kindly let us work in his driveway. Our float, unfortunately, did not win, but we have three years left to show our talent. We want to thank our volunteers and the class advisors who will be guiding us throughout the next three years: Nancy Daniel-Green and Rachel Kent. Our class is developing a great bond that shares our wackiness and spunk and this bond will become stronger over the next three years at Turners. I can't wait to see us all together again as sophomores in the fall.

2004 Girls Softball Massachusetts State Champions

In mid-March, 2004, nobody would have guessed that the TFHS varsity softball team would finish its season with a 23-2 record and a state title. We worked hard in the pre-season, but still produced little offense. Every single one of the nine positions in the field was important as we emerged as a strong, defensive team. Turners was seeded second in the WMASS tournament. We faced and eliminated Wahconah and Hampshire in tournament play and faced our rival, Greenfield, in the WMASS finals. Although we had defeated Greenfield twice already, we knew it would be an incredibly tough game. We were right! After a record-setting 16 innings, victory was ours. Next following some very timely hitting and tough defense, we beat CMASS champs, Hudson High, in the State Semi-finals; we were in the state finals! We soon found out that we were to face the defending state champions Cardinal Spellman, who boasted the MA Gatorade player of the year in their pitcher. On June 19, 2004 the apprehensive team of 17 "Lady Indians" took on Cardinal Spellman -- and their stripey socks. Both teams battled until the end, and despite a curve ball that the game officials threw at us TFHS came out with a 2-1 win and a Division 2 state championship. June 19, 2004 is a day that will live in the hearts of Kelly, Sarah, Jaclyn, Kellie, Sara, Shelby, Katie Jill, Marissa, Kim, Allison, Jess, Boola, Ashleigh, Becca Danie, Mr. Mullins, Sully, Tom, Bubbles, and I forever.

2004 Golf Team

The golf team had a successful season once again. We all felt as if we did well after our State Championship . Thanks to our three returning seniors, plus the excellent performance of the rest of the team and all of Coach Perlman's efforts, we had a record of 13-5 and a return trip to the State Championship Tournament. The team finished in the top half of all the schools. Chris Austin tied 8th individually and Chris Sicard placed in the top 20. Despite losing our three seniors we hope to have another winning season and get a bid to the State Tournament once again. We are hoping that things will go well as they have in the past.

I have a few things to say I want you to know that you have done a lot for me even though we haven't known each other or been together for that long. You inspired me to do things that I probably wouldn't have able to do and you know what I am talking about. I'm very grateful for that also. I hope you know that I believe in you and that I love you very much if you ever need help with anything don't be afraid to ask for help. There is one more thing you can do for me is please do not ever give up it's not about what you don't do but what you do with the gift of life that makes you special. You're the girl of my life that's right I said it if I could explain what you mean to me then you would know that it's meant to be and I hope that you see it to the best of my wishes for you.
I love you very much

Amber Lynn,
"You must be true to yourself, strong enough to be true to yourself, brave enough to be strong enough to be true to yourself, wise enough to be brave enough to be strong enough to shape yourself from what you actually are."

Congratulations.
Love, Gramma & Grampa Lambert

Amber,
It's almost impossible to believe that 18 years have passed. From that early Thanksgiving morning when you were born, through the years at First Church Nursery School and elementary school at Montague Center, we were always together. You began to find your self confidence at Sheffield and Great Falls Middle School. Almost total independence came in High School which will only serve as a beacon for college years. Your academic successes while at TFHS have laid the foundation for college. I am very proud of your accomplishments-but I would expect nothing less! I know your determination and sense of self will serve you well as you step out into the adult world.
Go get'em, Amber! Congratulations!
Love, Mom

Congratulations Amber!
You've made it! Much love and best wishes in your future endeavors. I know you will always shine as you always have. Your creative energy will allow you to be successful on whichever path you choose to take. Be wise, cautious, courteous, and kind. Most of all, be you and be happy. Know that you are loved.
Happy Graduation.

When you receive your diploma it will be because of the goals you set and the commitment you made to see them accomplished. Your intelligence and your drive for perfection in all you do will enable you to become whatever you want in life. So as you begin this new journey, make yourself a promise to never settle for less than your heart desire.
Love, Dad

Amber,
It's hard to believe my big sister is graduating and going off to college. We have had a lot of laughs, fights, and lasting memories. I never thought I would say this, but I am going to miss you when you are gone. Good luck in the years to come; I know you can accomplish anything you set your mind to.

Growing up with Kear, hanging with friends, family reunions at Lake Sacandaga, Father/Son Camping trips with your cousins, playing football with Michael John, Family vacations with Ashley and Meli, train rides with Jenna, all our family traditions, & all the great times celebrating at camp.

Life might not have always been easy but you've brought great joy to our lives everyday.

Where has the time gone! It seems like just yesterday we were in your driveway making our delicious chocolate chip cookies, or in my basement making our hilarious plays (I loved the Wizard of Oz). We both have changed so much from our earlier days, yet our friendship has made it through. You are my best friend and I wish the best for you. I know you will achieve your dreams. I love you so much, I mean who else could ever make me laugh for hours on end for no reason at all. Best Friends always and forever!

Eighteen Christmas seasons ago, we anxiously awaited your arrival, the event the ended the family chain of "pink!" It was an enchanting time to have a firstborn son, and we truly remember it "like it was yesterday." Everyone always says "Where did the time go?" and we are no exception. As fast as the years have been, they have also been fun, loving, musical, dramatic, and most of all, happier that we could ever have hoped. We have been blessed with four unbelievable children, and you are the last but definitely not the least. Hopefully if we've done our job well, you know how proud you make us and how very much we love you. The family that sings together…hears a lot of interesting notes!
With All Our Love and Congratulations,
Mom & Dad

Johnny-
I can't believe you are graduating already. It seems like just recently that I was putting curlers in your hair and dancing to MC Hammer with you! I don't know what I'm going to do next year when you're not home to play "The Little Mermaid" on the piano for my American Idol performance. But seriously, I am very proud of you and I can't wait to see all that you are going to accomplish in the upcoming years.
Good luck and I love you!
Kimbo

John-O,
It is hard to believe that you are graduating already. You are an amazing guy and I am sure you will be successful wherever life takes you. You have a charm and passion that you bring to everything you do. You are smart, handsome, and extremely talented, and have grown into a beautiful young man, and most of all, the best little brother any sister could ask for. You are an inspiration and a joy to be around. I wish you well in this next exciting phase of your life. Just remember, save some girls for the other guys at school, and don't ever forget how much I love you. I am so proud of all you have done and who you have become.
Congratulations and Good Luck!
Love,

John-
Congratulations-we are so proud of you! You have grown from a little guy that we could toss around to a handsome young man with many talents. I can still remember all those times we sat in front of the TV playing videogames endlessly – oh wait, that stills happens, only now it's with your brother-in-law instead of your sister. We are proud of you for your many accomplishments and awards, but even more proud to be your sister and brother-in-law. We know you will be successful in this next phase of your life and can't wait to see where life will take you. Never forget that we love you and that you can do anything you set your mind to!
Good Luck – We Love You, Lisa & Brian

To my baby sister-
The classes of high school are "thankfully" ending
And with you I wholeheartedly send my blessing
One door opens as another is closed
And you may have many questions posed
Of dreams and desires and turns to take
Of lessons to learn and mistakes to make
And there are many paths for you to choose
And you have nothing to fear and nothing to lose
Red red wine and purple rain
With out, my life would not be the same
And yes
The future belongs to those who believe in the beauty of their dreams
And no
Everything is not always quite as it seems
So congrats and best wishes, and of course good luck
Have fun in college you lucky…duck!

Rin Rin,
Do you remember my first day of kindergarten? You were so upset because you couldn't go to school too! You cried and screamed and said "it's not fair!" But, Meg assured you that your turn would come, and before you knew it you were off to Hillcrest Elementary. A year ago I graduated and again I heard those three words...Since last June time has passed so quickly! It's now your turn to graduate and I couldn't be happier for you! Since those kindergarten days I've had you as a friend; practically a sister and I've enjoyed watching you grow into the amazing person you are. Congratulations Erin! I wish you the best of luck!

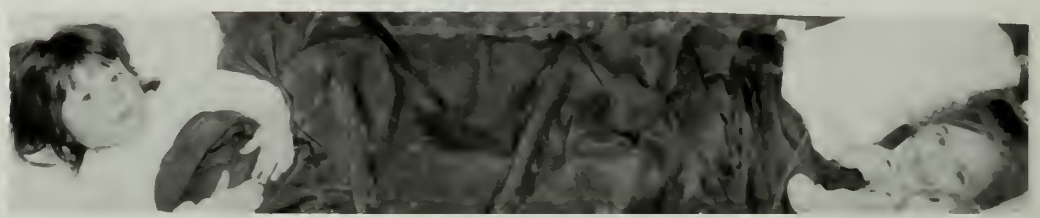
Ps. I really hope you do!



I never thought I would be a grandmother, so it is hard to believe that my first grandchild is graduating in 2005. For the first eleven years of your life, we were inseparable, and as you grew up I took a backseat to your friends. You have grown into a very beautiful, headstrong girl. I can not wait to see you graduate from high school and further your education in college. We love you very much!

Monkey:
To my little girl. Congratulations. It's been a long road, sometimes I can't figure out how you made it out of bed in the morning. I have seen you grow from a small little baby to a beautiful young lady. I can't be anymore proud. I will never forget when you were little, you used to sit on the toilet and flush it and jump up and down saying bubbles, bubbles... I still laugh every time I think about it. Even when you and Sara put a half eaten hot dog in my coat pocket right before my meetings so I would not be hungry, what I am getting to is I am so proud of you. I love you more than life itself. Good luck my little Monkey. I will always be here for you.
Love Dad

Julie:

Julie aka The Airhead:
First of all Congratulations. It's been a long road and you made it. You have over come everything that's been put in front of you and you haven't given up. I remember how much I didn't want a little sister, I was so mad but you turned out not all that bad. You actually became one of my best friends. At the end of the day you were always there to make me laugh and smile, but you still got your days when I want to pack you up and mail you to (China) just like I tried to do the day you were born. Just remember to do what makes you happy in life. Don't do something because you were told this is what you have to do. It's your life don't let anyone tell you how to live it. Yeah you will mess up along the way but you need to learn how to make it right. Just remember you can always come to me and Eddie if you ever need anything. Good luck.
Love Sara and Eddie/you big bro

P.S. – You're sneaky-funny

Danielle,
I bet you're thinking thank God it over. But in reality there have been a lot of good memories while you were in high school. Cherish them and don't have regrets. I've learned that high school can be two things, something to complain about and something to learn from. I know we've both complained about it a lot but learning from the trials of adolescence is of utmost importance. I've seen you grow and change into a beautiful and intelligent young woman and yes this sounds mushy but I love you very much. What ever happened in the past you will look back on and think of the good things because that's the type of person you are. Think about the friends you've made and the fun you've had and keep on thinking of that, it will keep you sane and happy. The most important thing I've learned since high school is that things don't end here, they are only beginning and the world has so many opportunities for a bright young woman like you. You can go anywhere and do anything because you're smart and I have faith that you'll be successful and happy in life.
Good luck and congratulations.

To Dani with love,
She leaves me speechless with her whimsical style and her caring heart. As the youngest she will always be my baby. My pet names were used to describe her over the years, usually ones that reflect her style at the time. I wouldn't want to embarrass her with those names now, but she knows the names I've used over the years to reflect how much she means to me. As a young woman, she has gone from one who would not leave my side to someone adventures enough to know the risks, secure her future and succeed beyond my expectations. Remember girl, you are the master of your own life, be who intend to be, enjoy every moment and continue to make me proud.
Love, Dad
